JASON PHILLIP LU

Department of Civil and Environmental Engineering, University of Michigan
972-515-9250 | lujason@umich.edu | Linkedin | Website | U.S. Citizen

EDUCATION

University of Michigan *Expected 2028*
Doctor of Philosophy, Civil Engineering GPA: 3.94/4.0
Advisor: Prof. Neda Masoud
Specialization in Next Generation Transportation Systems

University of Michigan *2026*
Master of Science, Industrial and Operations Engineering GPA: 3.94/4.0

Georgia Institute of Technology *2022*
Bachelor of Science, Industrial Engineering GPA: 3.93/4.0
Research Advisor: Prof. Pascal Van Hentenryck *Highest Honors*
Minor in Scientific and Engineering Computing

RESEARCH INTERESTS

Methodologies optimization, machine learning, game theory, simulation

Applications shared mobility, autonomous vehicles, logistics

PUBLICATIONS

*Corresponding Author

Peer-Reviewed Journals

Lu, J., Masoud, N. (2026). Incentive Design for Mobility Systems: A Review, Insights, and Future Directions. *Transportation Research Part E: Logistics and Transportation Review*. Volume 211, 104849. https://doi.org/10.1016/j.tre.2026.104849

Lu, J., Trasatti, A., Guan, H., Dalmeijer, K., Van Hentenryck, P. (2024). The Impact of Congestion and Dedicated Lanes on On-Demand Multimodal Transit Systems [Special Issue: Multimodal Public Transport, Travel Behaviour and Social Equity]. *Travel Behaviour and Society*. Volume 36, 100772. https://doi.org/10.1016/j.tbs.2024.100772

The Impact of Shared Autonomous Vehicles in Microtransit Systems: A Case Study in Atlanta. *Major Revision in Transportation Research Part C: Emerging Technologies*. https://doi.org/10.48550/arXiv.2601.21046

Lu, J., Xia, X., Bahrami, S., Masoud, N. (2026). Path-Based Incentives for Multimodal Networks under Multiclass Traffic Assignment. *Major Revision in Transportation Research Part B: Methodological*. https://doi.org/10.13140/RG.2.2.15344.62722

Lu, J., Masoud, N. (2026). The Incentive Bundle Program: Behaviorally-Consistent Incentive Design for Multimodal Transportation. *Under Review in Transportation Research Part B: Methodological*. https://doi.org/10.13140/RG.2.2.22027.14882/1

Working Papers

Lu, J., Masoud, N. Cooperation and Competition in Multimodal Transportation Incentive Programs: A Tri-level Game-Theoretic Optimization Approach. *Extended Abstract Accepted at the 2026 INFORMS Transportation Science and Logistics Conference.*

Lu, J., Chen, C., Liu, Y., Wu, Y.L., Kusari, A., Masoud, N. A Large-Scale Optimization and Simulation Framework for Sensor Configuration in Autonomous Vehicles. *Abstract Accepted at the 2026 INFORMS Annual Meeting.*

Chen, T., Masoud, N., **Lu, J.***. LLM-Guided Multi-Armed Bandit Mechanisms for Multimodal Transit Incentive Allocation. *Preprint Accepted at the 106th Transportation Research Board Annual Meeting.*

PRESENTATIONS

Invited Talks

A Large-Scale Optimization and Simulation Framework for Sensor Configuration in Connected and Autonomous Vehicles. *Next Generation Transportation Systems Seminar Series*, Department of Civil and Environmental Engineering, University of Michigan, March 19, 2026.

The Incentive Bundle Program to Enhance Multimodal Transport. *Next Generation Transportation Systems Seminar Series*, Department of Civil and Environmental Engineering, University of Michigan, February 27, 2025.

Conference Presentations

ADVISING

Masters Students

Xingpeng Xia, University of Michigan
M.S. Civil Engineering (Expected 2026)

Yuyang Liu, University of Michigan
M.S. Electrical Engineering (2026)
Placement: PhD Student, University of Michigan

Undergraduate Students

Tianlang Chen, University of Michigan
B.S. Data Science (Expected 2027)

Yi Ling Wu, University of Michigan
B.S. Computer Engineering (2025)
Placement: PhD Student, Texas A&M University
- Aviles-Johnson Doctoral Fellowship

TEACHING

Graduate Student Instructor — **University of Michigan**

CEE 553 - Infrastructure Systems Optimization — *Fall 2026*
Instructor: Prof. Neda Masoud

Guest Lecturer — **University of Michigan**

Gurobi — *Fall 2024, Fall 2025*
CEE 553 - Infrastructure Systems Optimization

Next Generation Transportation Systems *Spring 2025*
CEE 200 - Introduction to Civil and Environmental Engineering

Career Fair *Fall 2024*
CEE 200 - Introduction to Civil and Environmental Engineering

Head Teaching Assistant **Georgia Institute of Technology**

ISYE 4134 - Constraint Programming *Spring 2023*
Instructors: Mr. Tejas Santanam, Prof. Pascal Van Hentenryck

Undergraduate Teaching Assistant **Georgia Institute of Technology**

ISYE 3044 - Simulation Analysis and Design *Summer 2022*
Instructor: Prof. Seong-Hee Kim

ISYE 4034 - Decision and Data Analytics *Spring 2022*
Instructor: Prof. Jye-Chyi Lu

ISYE 3770 - Statistics and Applications *Spring 2021*
Instructor: Dr. Tuba Ketenci

HONORS AND AWARDS

Honorable Mention, Student Poster Competition *2026*
2026 INFORMS Transportation Science and Logistics Conference

Western Track Best Paper Award *2025*
The 7th Bridging Transportation Researchers Conference

Rackham Conference Travel Grant *2024, 2025, 2026*
Rackham Graduate School, University of Michigan

Stewart Topper Fellowship (Declined) *2023*
H. Milton Stewart School of Industrial and Systems Engineering, Georgia Institute of Technology

Senior Design Capstone Finalist *2022*
H. Milton Stewart School of Industrial and Systems Engineering, Georgia Institute of Technology

SERVICE - INTERNAL

Michigan Transportation Student Organization
Vice President *May 2024 - Apr. 2025*

The Seth Bonder Camp in Computational and Data Science for Engineering
Instructor *Jun. 2022 - Jul. 2023*

SERVICE - EXTERNAL

Reviewer
Peer-Reviewed Journals

- Transportation Research Part B: Methodological

Conferences

- The 105th Transportation Research Board Annual Meeting
- The 7th Bridging Transportation Researchers Conference
- The 104th Transportation Research Board Annual Meeting

Session Chair

- Advancements in Urban Transit Systems, *2024 INFORMS Annual Meeting*, Seattle, Washington, October 20-23, 2024.

INDUSTRY EXPERIENCE

Convoy
Process Improvement Intern — *Jan. 2022 - May 2022*

Yokogawa
Industrial Engineering Intern — *May 2021 - Dec. 2021*
Industrial Engineering Intern — *May 2020 - Jul. 2020*
